Introducing Vivexotic Heat Mat Holder

An essential device for ensuring your reptile is warm and to help aid digestion is a heat mat and with the new Vivexotic Heat Mat Holder, heating melamine vivariums has never been safer and more convenient.

The Vivexotic Heat Mat Holder has been specifically designed to enable heat mats to be used safely in wooden vivariums. It incorporates twin layers of glass so that air can circulate across the surface of the mat to reduce the risk of overheating and thermal blocking.

Benefits

- ÉCreates even heat distribution
- ÉEliminates hot spots
- ÉProtects heat mat from animal and water damage
- ÉSturdy construction with BS safety glass

For best results use with the medium Exo Terra Heat Mat (26.5 x 28cm)
