

FLUVAL[®] SEA REEF

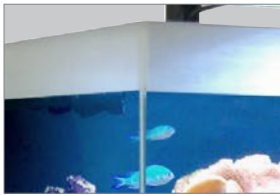

PREMIUM MARINE AQUARIUMS

Designed with clean lines and a contemporary finish

Beautifully designed marine reef aquariums, complete with all the hardware required for keeping a reef setup, including high efficiency Fluval Marine & Reef Performance LED lighting, with Multi LED technology

for powerful spectral performance that will drive lush coral growth while providing accurate pleasant viewing.

Integrated frosted glass framing, conceals waterline at surface and gravel debris at bottom

High quality cabinet with 38mm framing and modern doors

Performance Marine & Reef LED illumination for a modern look and easy aquarium access

Multi LED technology for powerful spectral performance that will drive lush plant growth

Unique, integrated water change system

Change up-to 20% of aquarium volume without exposing corals to air.

Unique drainage assembly discreetly situated in the rear filter

compartment connects to a simple valve system inside the cabinet.

- Simple Valve
- Quickly Drains Filter Compartment
- Saltwater mix can be poured into compartment
- Drain hose neatly stored in cabinet

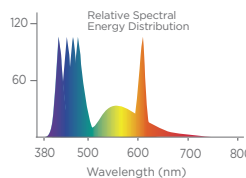

On the M40 Reef aquarium the drain valve is situated to rear of the filter compartment, allowing the aquarium to be used without the cabinet for use on desktops etc.

Performance LED with switchable day & night lighting

Fluval Marine & Reef LED Light Strip featuring 6 unique LED band widths, including essential actinic blue wavelengths, for full spectrum coverage and key spectral reinforcement to provide a balanced combination for optimal coral photosynthetic activity, growth and viewing.

100%

LED spectral combination equals a complete multi-spectrum lighting solution
