FRESH & PLANT 2.0 PERFORMANCE LED STRIP LIGHTS

Compatible with the new
FLUVAL WI-FI MODULE
pg 10

The Fluval Fresh & Plant 2.0 Performance LED Strip Light is an evolution of our previous generation of freshwater and plant LEDs, now featuring greater light output and a new illuminated touch-sensitive switch with dimming control. This profession-grade LED strip light features 5 unique band waves to ensure balanced full-spectrum coverage vital for aquatic plant growth, color and health.

VERSATILE MOUNTING OPTIONS

Mounting with a cabinet
(A3978 Fluval Performance LED
Mounting Clips, sold separately)

Suspended
(A3979 Fluval Performance LED
Suspension Kit, sold separately)

**Mounting
on frame**

Wide-angle light dispersion (120° angle) ensures
full aquarium coverage and
uniform lighting

**20%
BRIGHTER**
than the previous
generation

FULL SPECTRUM Freshwater & Plant LED Lighting

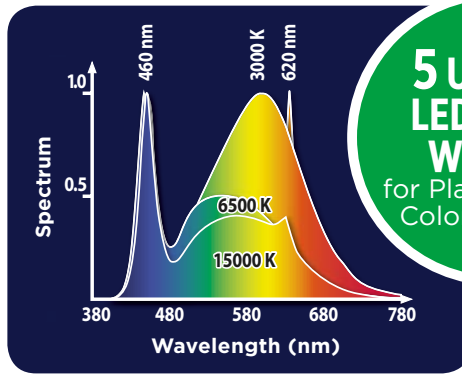

NEW!

POWERFUL DAY & NIGHT ILLUMINATION

3-setting illuminated, dimmable touch switch provides daytime, night time or off selection options.

Relative Spectral Energy Distribution

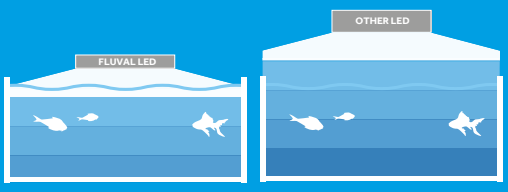

5 UNIQUE LED BAND WIDTHS
for Plant Growth, Color & Health

WATERPROOF LESS LIGHT LOSS

With an IPX7 waterproof rating, the Fresh & Plant 2.0 LED can be mounted directly above the water surface for greater light penetration and efficiency.

The Fresh & Plant 2.0 LED can not only endure regular splashing, but even temporary submersion in the event the unit is dropped under water accidentally.

AURA PERFORMANCE LED LAMP

The Aura nano and desktop freshwater aquarium LED helps grow bigger, more vibrant plants thanks to a high-output 7500 K color temperature and powerful C.O.B (Chip On Board) technology, which efficiently packs a greater number of mini LEDs into a tighter space. Illuminated by a touch switch control, Aura offers 120° light dispersion for superior aquarium coverage and uniform lighting.

MARINE & REEF 2.0 PERFORMANCE LED STRIP LIGHTS

Compatible with the new
FLUVAL WI-FI MODULE
pg 10

Building on the success of our previous generation of marine and reef LEDs, the Fluval Marine & Reef 2.0 Performance LED Strip Light features greater light output and a new illuminated touch-sensitive switch with dimming control. 6 unique light spectrum bandwaves (four of which are essential actinic blue wavelengths) ensure balanced full spectrum coverage for vibrant coral growth, color and health.

HALO PERFORMANCE LED LAMP

Specifically designed to grow bigger and brighter corals in nano/desktop saltwater environments, Halo features a high-output 25000 K color temperature and powerful C.O.B (Chip On Board) technology and offers improved illumination, efficiency and spectral performance. Halo is also highlighted by its versatility and practicality. This is apparent by means of its waterproof IPX7 rating, gradual dimming capability, and fully adjustable lamp and bracket positioning.
