## *Rolf C. Hagen win in PFK Voting Poll 2013*

The votes have been cast and counted, results confirmed and the 'Oscars of the fishkeeping world' announced, with Rolf C. Hagen the worthy winners in two categories.

The annual PFK poll asks thousands of readers to vote for their top aquatic shops, manufacturers and products of 2013.

**For the fifth time, Hagen was voted manufacturer of the year**, by the people that really matter, the fishkeeping public.

**The innovative Fluval FX-6 external filter was voted Tropical Product of the Year.** Hagen's FX-6 filter was launched earlier this year and is one of the UK's most popular large external filters thanks to its Advanced Motor Technology, energy efficient motor and super quiet operation.

*"These awards are testament to the forward thinking views embodied by Hagen and our ability to consistently bring products to market that consumers want, enjoy and value", said Paul Trott, Hagen UK Marketing Manager. "Quality, design and innovation are the bywords we live by so it is always gratifying to know our hard work and dedication is appreciated by the fishkeeping public. I would like to take this opportunity on behalf of the Hagen team to extend our thanks to all our customers and stockists for their continued support."*

For full award details see the December issue of Practical Fishkeeping.
