*Create a dazzling, colourful aquarium display with  
the Marina LED Air Curtain*

---

The Marina LED Air Curtain is now available in a new smaller size to add even more visual pizzazz to smaller aquascapes whilst also improving water circulation and oxygenation.

Now available in small (35.5cm) and large (53cm), the air curtain is easy to install - simply submerge, attach to the bottom of the aquarium and connect a standard air pump.

The flexible curtain can be shaped to suit your design needs; you can install it in a straight line to create a breathtaking wall of bubbles and lights or shape it in semi-circle fashion around ornaments, plants or rocks for dazzling visual highlighting.

The units are available in three colours and feature 8 or 12 LED lamps, a low voltage transformer and 3 suction cups. Air pump sold separately.

Colours available:

- A947 Marina Flexible LED Air Curtain, Blue, Length: 35.5 cm (14 in)
- A948 Marina Flexible LED Air Curtain, Green, Length: 35.5 cm (14 in)
- A949 Marina Flexible LED Air Curtain, Red, Length: 35.5 cm (14 in)
- A950 Marina Flexible LED Air Curtain, Blue, Length: 53 cm (21 in)
- A951 Marina Flexible LED Air Curtain, Green, Length: 53 cm (21 in)
- A952 Marina Flexible LED Air Curtain, Red, Length: 53 cm (21 in)
