Exo Terra Reptile Caves

Create a Secure Hiding Place in your Natural Terrarium

A proper hiding area is an often-underestimated feature of a natural terrarium. Without a safe spot to hide and sleep reptiles and amphibians will easily develop stress that will affect their activity and appetite.

The new range of Exo Terra Reptile Caves mimic the natural hiding places of reptiles and amphibians, featuring a realistic pebble design and an enlarged hiding volume, these hideouts are the perfect space for some alone time.

The Exo Terra Reptile Cave provides shelter as well as offering a cooler and more humid microclimate in your terrarium and with its stable design cannot easily be tipped over by larger reptiles.

The caves come in a variety of sizes - small, medium, large and XL making them suitable for a variety of reptile species.

PT2880 - Exo Terra Reptile Hiding Cave Small
