

ROLF C. HAGEN (UK) LTD. PRESS RELEASE

16/12/13

Fluval Roma 125 takes inspiration from the catwalk - new limited addition monochrome design!

Launched in 2007, Fluval Roma has become one of the most popular aquarium ranges in the UK, and for good reason! Its simple, stylish design creates the perfect showcase for your fish and brings sophistication to modern home decor.

Now available in a fantastic new colour scheme, the monochrome black and white version features a black and gloss white cabinet with co-ordinating handles and aquarium decor strips finished in white. This aquarium set-up would not go amiss in a swanky hotel lobby, and will add a subtle hint of glamour to any home environment.

The complete aquarium solution

The Roma 125 aquarium set comes complete with the award winning Fluval U-Series Underwater Filter, featuring an innovative flip top feature to make cleaning or changing the 3-stage media cartridges quick and easy. The 3 water output options (top output, bottom output or integrated spray bar) give you total control over your aquarium's water flow.

The included Fluval M-Series Heater has a unique mirrored finish which reflects its surrounding colours and shapes. This allows it to blend, unnoticed into the background allowing you to enjoy your underwater world in all its natural beauty.

The perfect aquarium environment

The black and white Roma 125 Designer Aquarium Set is filled with everything you need to create a healthy, clean home for your fish, including Fluval filtration and heating, LCD thermometer and a comprehensive care guide.

Fluval Roma Designer Aquarium Sets are available now in most good aquatic stores.
