High Performance Canister Filter
Now more energy efficient than ever!

FLUVAL

NEW!

Advanced Motor Technology
Energy Efficient Motor
Super Quiet Operation

Self Starting

Just add water and plug in.
Fluval Smart Pump Technology will do the rest. No need for manual siphoning.

Maintenance Reminders

Monthly Indicator Dials allow you to remember the date of your last filter maintenance/water change.

Clog-Free Strainer

Heavy duty anti-clogging strainer assures continuous flow.

Multi-Directional Output Nozzle

Twin output nozzles can be adjusted to create specific water flows.

Purge Valve with Drain Hose

For easy maintenance and flushing of the canister.

Water Change Feature

No need to carry buckets of water. Just attach appropriate hose to the output and the FX6 Smart Pump Technology will do the rest.

For Aquariums up to:	1500L
Pump Output:	3500L
Mechanical Area (Foam):	325.5 in2 / 2100 cm2
