## *Let the Energy Flow with Fluval Chi*

---

The fantastic Fluval Chi, one of the most striking aquariums on the market has got even better, thanks to its improved lighting, filter and lid.

Based on the principles of Feng Shui, the 19 litre Fluval Chi's unique features include a combined filter, light unit and water feature. Water gurgles over the top of the feature which appears to float in the centre of the tank.

The improved LED light creates a focal point within the aquarium and another single LED shines up through the water fountain, creating a beautiful sparkle effect.

An improved filter provides an increased flow rate which will ensure your fish are living in the best conditions and the plastic cover for the waterfall ensures no water will overflow out of the tank. The new Chi also includes a lid which safely protects your fish, delivering a dynamic and beautiful looking tank that will sit serenely in any environment.

**Fluval Chi represents the very latest in style and beauty and is available from good pet retailers now.**
